RV SHELTER REGULAR STYLE METAL ROOF

CALL NOW TO ORDER!

Protect your RV, camper, or motorhome in between long trips. At 12' wide x 31' long x 12' high, it has 372 square feet of storage space and is tall enough to store almost any RV. Additional space on the ends for large equipment. Side half walls for increased weather protection, while the rest is open for easy access to vehicles and equipment. Customize by adjusting dimensions, or enclosing garage. Choose from large color selection to match style and existing structures.

Quality galvanized steel framing and heavy duty roofing panels. Side wall paneling protects from rain, sleet, ice, and sun. Reinforced with added bracing on the corners and center. Innovative truss design allows for buildings up to 60' wide without interior support. Regular roof is a sturdy, affordable design that is guaranteed to be free of leaks and other defects. Optional certification for added strength.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
