**VERTICAL RV CARPORT**

**CALL NOW TO ORDER!**

At 12' wide x 36' long x 12' tall, provides 432 square feet of storage space at a great price. Protect your RV, camper, or motorhome in between long trips and against inclement weather with this three-sided RV carport. Built with a strong vertical metal roof for durability. Customize your RV carport by adjusting dimensions, features, and much more. Choose from our large color selection to match your style and existing structures on your property.

Manufactured with premium galvanized steel framing and 29 gauge roof panels. Reinforced with bracing on the corners and center of the structure, and we include concrete-specific anchors at no extra charge. Our innovative truss design allows us to manufacture buildings up to 60' wide, without any interior supports needed. The roof and side wall paneling are guaranteed to be free of leaks and other defects.

**12' WIDE x 36' LONG x 12' TALL**

**LAND/CEMENT FOUNDATION MUST BE LEVEL**

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
