**RV CARPORT REGULAR ROOF**

**CALL NOW TO ORDER!**

Protect your car, truck, and other expensive equipment. At 12' tall, you can fit almost any RV, camper, or mobile home underneath the roof. Extra space for outdoor equipment on edge of structure. Added side panels for extra protection from inclement weather and debris. Customize your RV Carport by adjusting dimensions, features, and more. Create enclosed garage by adding side and end walls. Choose from large color selection to match your style and existing structures.

Designed with premium grade steel framing and 29 gauge roof panels. Innovative truss system with reinforced bracing on the corners and center for maximum durability. We can manufacture buildings up to 60' wide, without any interior supports needed. The regular metal roof is guaranteed to be free of leaks and other defects. Top quality metal buildings will help you avoid costly repairs for years to come.

**12' WIDE x 41' LONG x 12' TALL**

**LAND/CEMENT FOUNDATION MUST BE LEVEL**

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
