### REGULAR STYLE CARPORT

**CALL NOW TO ORDER!**

This regular style carport from **Elephant Structures** is perfect for anyone looking for a metal building at a great price. Building specifications include dimensions of 14' wide x 21' long x 12' tall, a 14 gauge galvanized steel frame, and a regular roof with 29 gauge panels. For added protection, there are half walls on each side of the structure. This carport is great as an RV cover or for large vehicle and equipment storage. Purchase this carport as-is, or customize it to create your own unique building. The choice is yours!

If you are looking for a regular style carport at a great price, contact the experts at **Elephant Structures**. We custom manufacture clear span buildings up to 60' wide, at any length you need. Heavy duty commercial framing available. Give us a call today!

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
