**#28320**

**CERTIFIED ONE CAR CARPORT**

**CALL NOW TO ORDER!**

This certified one car carport from **Elephant Structures** is perfect for anyone looking for a metal building at a great price. The carport is an outstanding way to shield your vehicles or valuable equipment from inclement weather. Building specifications include dimensions of 16' wide x 21' long x 8' tall, a 14 gauge galvanized steel frame, and a regular roof with 29 gauge panels. Free upgrade to 18' wide! This certified carport is guaranteed to meet your county's building codes and regulations, and is reinforced for high wind and snow loads.

If you are looking for a certified carport at a great price, contact the experts at **Elephant Structures**. We custom manufacture clear span buildings up to 60' wide, at any length you need. Heavy duty commercial framing available. Give us a call today!

### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
