**CALL NOW: (855) 227-7678**

Monday - Friday, 8:30 to 7:00 Eastern; Saturday, 10:00 to 3:00; Sunday closed

**#31259**

### ONE CAR METAL GARAGE

**CALL NOW TO ORDER!**

Our 18' x 21' metal garage comes standard with one garage door, one walk-in door, and one window. At 18' wide by 21' long by 8' tall, this garage is great for one car and additional outdoor equipment. With 378 square feet of storage space, you could even use this garage as a workshop or auto-repair area. Customize the dimensions and features on this garage to your exact needs. Choose from our large color selection to match your personal style or other buildings.

We manufacture all of our metal garages with American-made galvanized steel framing and heavy duty roofing panels. 29 gauge side wall paneling protects your enclosed equipment from inclement weather. We also reinforce the corners and center of our steel frame with extra bracing. The boxed eave roof is guaranteed to be free of leaks and other defects.

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
