TWO CAR CARPORT METAL BUILDING

CALL NOW TO ORDER!

At 18' x 21' x 8' tall, this carport provides 378 sqft. of storage space. Comfortably store two cars, trucks, or assorted lawn equipment. Our carports are incredibly versatile and can be used as an auto-repair area, outdoor workshop, picnic shelter (pictured), and more! Customize your two car carport to meet your specific needs by adjusting the dimensions and features. Choose from our large color selection to match your style and existing structures.

We use highest quality American-made steel for manufacturing, and roofing and side walls are constructed with heavy duty panels. Reinforced with bracing on corners and center for maximum durability. Our metal buildings are so strong, we can manufacture them up to 60' wide, without any extra interior supports! Boxed eave roof is sturdy and reliable, and guaranteed to be free of leaks and defects.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
