Monday - Friday, 8:30 to 7:00 Eastern; Saturday, 10:00 to 3:00; Sunday closed

**#31277**

### REGULAR STYLE TWO CAR METAL GARAGE

**CALL NOW TO ORDER!**

Measures 18' wide by 21' long by 9' tall and provides 378 square feet of storage space for cars or trucks. There are two large garage doors on the front wall for easy vehicle storage, with a walk-in door and window on the side wall. At 18' wide, there is ample room for two cars to fit side by side underneath the roof. Customize this metal garage for whatever you need, including choosing from our large selection of colors to find one that matches other buildings on your property.

We manufacture all of our garage storage systems with the highest quality steel framing and roofing panels. The side wall panels are 29 gauge heavy duty steel sheets. Our unique truss design means we can manufacture buildings up to 60' wide, without any interior supports needed. This gives you the ability to customize your building for anything you need

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
