VERTICAL ROOF ENCLOSED METAL GARAGE
CALL NOW TO ORDER!

Built using high-strength steel and designed to last for years, this custom enclosed metal garage is an incredibly versatile and durable building solution for your home or business. Protect cars and trucks from the threat of severe weather, keep all of your tools and equipment organized, and safely store supplies and materials without the risk of criminal activity.

This enclosed metal garage building measures 18'x21' to create nearly 400 square feet of space and features a walk-in and garage door for added accessibility. All of our buildings can be designed and certified to withstand severe weather conditions specific to your area.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
