Monday - Friday, 8:30 to 7:00 Eastern; Saturday, 10:00 to 3:00; Sunday closed

**#31279**

### METAL GARAGE WITH REGULAR ROOF

**CALL NOW TO ORDER!**

Shield your vehicles and equipment from the elements. Designed with a regular style roof and a roll-up garage door for your car or truck on the front wall. Also has a walk-in door and window located on either side of the garage door. With 378 square feet of storage space, you can fit two cars side by side under the metal roof. Measures 18' wide by 21' long by 7' tall, with peak roof height of just under 10'. Customize this metal garage for whatever you need.

We manufacture our metal garages with durability in mind to protect your vehicles and equipment for years to come. We use American-made galvanized steel for our frames, and heavy duty 29 gauge panels for the roof and side walls. All buildings are reinforced with bracing on the corners and center of the steel frame for ultimate durability. The regular roof is guaranteed to be free of leaks and other defects.

### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
