ONE CAR METAL GARAGE

CALL NOW TO ORDER!

This one car metal garage is perfect for anyone looking for a metal building at a great price. Building specifications include dimensions of 18' wide x 21' long x 9' tall, a 14 gauge galvanized steel frame, and a boxed eave roof with 29 gauge panels. The garage has beige walls with a brown roof, and includes a 10' wide x 8' tall garage door on the front wall. Numerous custom options are available, including factory certification, walk-in doors or windows, and much more! Great for protecting vehicles and valuable equipment.

If you are looking for a metal garage at a great price, trust the folks from Elephant Structures! We are one of the oldest and largest metal building suppliers in the nation! Upgraded commercial framing is available. Call today!

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
