TWO CAR CARPORT DOUBLE WIDE

CALL NOW TO ORDER!

Built with a strong metal roof and added utility shed, it provides great protection and value for storing vehicles and equipment. With total dimensions of 18'x 26' x 6' tall, the carport provides 468 sqft. of storage space. The open carport is 18' wide x 21' long and can store two cars, trucks, or other lawn equipment. The enclosed storage area is 18' x 5' and is great for smaller lawn equipment or tools. Choose from our wide selection of colors to find one that fits your style.

We build all of our structures with durability in mind, using only the highest quality steel framing and roofing panels. All buildings are reinforced with bracing on the corners and center of the steel frame for ultimate durability. The open carport and enclosed storage space connect seamlessly without any gaps or leaks. The regular roof is one of our most popular options and is guaranteed to be free of defects.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
