### METAL GARAGE BOXED EAVE ROOF

**CALL NOW TO ORDER!**

Designed with our premium vertical wall paneling for maximum durability. Measures 18' wide by 26' long by 9' tall and offers 468 square feet of totally enclosed storage space. Great for storing one car or truck, with added space on the ends of the building for equipment. 8' wide x 8' tall garage door on the front of the building can fit almost any car or truck. Customize the dimensions or features for whatever you need. Choose from our wide selection of colors to find one that fits your style.

We manufacture all of our metal buildings with high quality galvanized steel framing and heavy duty roofing panels. Reinforced with bracing on the corners and center of the steel frame for ultimate durability. Vertical side wall paneling protects your enclosed vehicles and equipment from harsh weather and debris. The boxed eave metal roof is guaranteed to be free of leaks and other defects.

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
