STEEL PARK PICNIC SHELTER

CALL NOW TO ORDER!

This park picnic shelter has 468 square feet of protected storage space. A great way to create a safe place for outdoor activities. One side closed for extra shade, and custom frame-outs on the other side for a unique design. You can customize this picnic shelter for anything you need. Adjust the dimensions, add or remove walls, and change the colors – the choice is yours!

Our picnic shelters are manufactured with the highest quality materials available. The building frame is constructed with premium American-made galvanized steel. The roof and wall panels are heavy-duty 29-gauge steel sheets. We reinforce all of our metal buildings with corner and center bracing on the steel frame. The boxed eave roof has a strong design and is guaranteed to be free of leaks and other defects.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
