**CALL NOW TO ORDER!**

If you need outdoor storage space without breaking the bank, check out this 18' x 26' Two Car Carport. Built with a strong metal roof and reinforced with corner and center bracing, this carport provides great protection and value. With dimensions of 18' x 26' x 7' tall, you have 468 square feet of storage space for your cars, trucks, and equipment. This open structure is versatile and can be used as a picnic shelter, auto-repair area, outdoor workshop, and much more! Customize the dimensions, features, and color to meet your specific needs. This two car carport is built to last a lifetime. Our carports are constructed with the finest quality galvanized steel framing and heavy duty 29 gauge roofing panels. All buildings are reinforced with bracing on the corners and center of the steel frame for maximum durability. Our strong truss system allows us to manufacture buildings up to 60' wide, without any interior supports needed.

**LAND/CEMENT FOUNDATION MUST BE LEVEL**

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
