18 X 26 2 CAR METAL CARPORT

CALL NOW TO ORDER!

This 2 Car Metal Carport combines the versatility of an open carport with the protection of an enclosed storage building. The carport has total dimensions of 18' wide x 26' long x 7' tall. There is an 18' x 21' covered carport attached to an 18' x 5' enclosed utility shed. The open area is great for your car or truck, while the enclosed area stores smaller equipment. Built with a strong steel frame and metal roof, this carport provides great protection and value. Customize 2 car carport by adjusting the dimensions, features, and color to meet your needs. If you require a larger utility shed, give us a call and speak to a building advisor.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
