18 X 31 METAL BUILDING WITH LARGE DOOR

CALL NOW TO ORDER!

A metal building from Elephant Structures is an affordable way to keep your vehicles and equipment safe from bad weather and debris. This 18x31 garage is large enough to fit one car with extra space for large equipment. There is a roll-up garage door on the front wall, with an entry door on the side wall for personal use. You could even customize this metal garage by adding a second roll-up door on the front wall, turning this building into a 2 car garage. With 558 square feet of storage space, the possibilities are endless. Choose from our wide selection of colors to find one that fits your style.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
