RV CARPORT WITH VERTICAL ROOF

CALL NOW TO ORDER!

Total dimensions of 18' wide x 41' long x 14' tall and provides 738 sqft. of storage space for your vehicles and equipment. It has tall legs to act as an RV carport but is also great for two cars or trucks. Built with closed sides and a closed back end for added protection from inclement weather. Gabled front end offers extra shade from the harsh sun. Walk-in door on the back wall for easy access to your stored items.

Manufactured with top quality materials. Built with our upgraded 12 gauge galvanized steel framing. Roof and wall panels are 29 gauge steel sheets. Designed with enhanced truss system and double legs for maxdurability. Certified for 30 PSF of snow and 130 MPH wind speeds and includes extra bracing on each leg. Anchors will be supplied for proper grounding and structural stability. Vertical roof is our strongest roof option and is guaranteed to be free of leaks and other defects.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
