### RV COVER WITH METAL ROOF

**CALL NOW TO ORDER!**

Total dimensions of 18' wide x 41' long x 12' tall and provides 738 sqft. of storage space for your vehicles and equipment. It has tall legs to act as an RV carport but is also great for two cars or trucks. Extra wall panels on the sides of the RV cover for added shielding from inclement weather. Customize this building for whatever you need. Choose from our large color selection to find one that matches your other buildings.

Manufactured with the highest quality materials available. Built with upgraded 12 gauge galvanized steel framing. Roof and wall panels are 29 gauge heavy duty steel sheets. Designed with enhanced truss system and double legs for max durability. Certified for 30 PSF of snow and 130 MPH wind speeds and includes extra bracing on each leg. Anchors will be supplied for proper grounding and structural stability. Boxed eave roof is guaranteed to be free of leaks and other defects.

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
