CUSTOM DOUBLE WIDE GARAGE / CLEAR PANELS

CALL NOW TO ORDER!

This customer purchased clear panels from a retailer to install on his building. We thought it looked great, and he sent us some pictures. If you desire this configuration, speak with a building advisor on how to configure it. It requires a custom quote. This metal garage complete with an 10'x 10' roll-up door is a durable and affordable solution to any of your storage problems.

Measuring 20' wide by 30' long with a height of 12', this metal shed has nearly 600 square feet of storage space. Store your vehicles and other property with ease in this versatile metal shed. All of our structures can be designed and certified to withstand severe weather specific to your area. *This price and BUILD ID does not include the clear panels in the product gallery. They must be purchased after market.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
