**#31372**

**22 X 26 METAL BUILDING WITH BOXED EAVE ROOF**

**CALL NOW TO ORDER!**

This 22x26 two car metal building is a great way to protect your vehicles from inclement weather and the harsh sun. This building is designed with two roll-up garage doors on the side wall to maximize your available storage space. With dimensions of 22' wide by 26' long by 9' tall, you are getting 572 square feet of storage space. Since the garage doors are located on the 26' side wall, this means the depth of your garage is 22'. You can customize this metal building for whatever you need. Adjust dimensions, add or remove doors and windows, and pick from our large color selection. The choice is yours!

**20' WIDE x 26' LONG x 9' TALL**

**LAND/CEMENT FOUNDATION MUST BE LEVEL**

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
