DOUBLE WIDE STEEL CARPORT

CALL NOW TO ORDER!

This double wide steel carport is perfect for anyone looking for a metal building at a great price. The carport is built with durable galvanized steel framing and heavy duty roofing panels. Building specifications include dimensions of 22' wide x 31' long x 10' tall, 14 gauge frame, and regular style roof. There is extra bracing on the corners and center of the frame for added durability. The carport easily has space for two cars or trucks, with an open design for easy access.

If you are searching for a steel carport at a great price, ask about our metal buildings. Elephant Structures manufactures standardized buildings, as well as custom designed carports, garages, and commercial buildings. Give us a call or shop online to find one that fits your needs, at a great price!

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
