24' X 31' METAL GARAGE WITH VERTICAL ROOF

CALL NOW TO ORDER!

Searching for top quality storage at a great price? This 24x31 metal garage has 744 square feet of storage space for your vehicles and equipment. The building is designed with an 8' x 8' garage door, a walk-in door, and two windows on the 31' side wall. The placement of the doors maximizes your storage space and naturally creates two separate storage sections. You can customize this metal garage for whatever you need. Choose from our wide selection of colors to find one that matches other buildings on your property. The garage measures 24' wide x 31' long x 9' tall and is built with a strong vertical roof. It comes standard with one 8' x 8' garage door, one walk-in door, and two windows on the 31' side wall. The doors are placed on the side wall to maximize your available space and allow for separate storage sections. You can customize this garage in any way you need. Just give us a call to speak with an advisor.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
