DOUBLE WIDE THREE SIDED CARPORT

CALL NOW TO ORDER!

This double wide carport from **Elephant Structures** is perfect for anyone looking for a premium quality storage building at a great price. The carport has dimensions of 26' wide x 24' long x 7' tall and is manufactured with a 14 gauge galvanized steel frame and 29 gauge roof panels. The carport is three sided, with an enclosed back end and side walls for optimum protection. The front end has a gable for a bit of added shade. There is also a 9' wide x 7' tall garage door on the back end providing an easy exit and a more versatile structure.

If you are looking for a double wide carport at a great price, contact the experts at **Elephant Structures**. This durable, partially enclosed carport is great for protecting your vehicles or equipment, and can be customized in almost any way imaginable. Give us a call today!

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
