METAL STORAGE BUILDING VERTICAL ROOF

CALL NOW TO ORDER!

This 40x80 metal storage building is the best value on the market for a top quality steel garage. Measures 40' wide x 80' long x 11' tall and offers 3200 sqft. of storage space for your vehicles and equipment. It comes standard with six 10' wide x 10' tall garage doors for easy access to your vehicles and equipment. There are three garage doors on the front wall, and three on the back wall.

Manufactured with only the highest quality premium American-made galvanized steel for our building frames. We then reinforce the frame with bracing in the corners and center of the structure. Our roof and wall panels are heavy duty 29 gauge steel sheets. This building is automatically certified for wind and snow in your area and also include anchors for proper grounding. The garage is guaranteed to be free of leaks and other defects.

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
