COMMERCIAL METAL GARAGE BUILDING

CALL NOW TO ORDER!

This metal garage building from **Elephant Structures** is perfect for anyone looking for a top quality metal building at a great price. The building has dimensions of 40' wide x 80' long x 14' tall and offers 3200 square feet of storage space. It is built with premium 14 gauge galvanized steel framing and heavy duty roofing panels. The building is manufactured with a vertical roof which is our strongest roof option. There is one roll-up garage door on the front wall, and an entry door on the side wall. Customize this building for whatever you need!

If you are looking for a metal garage building at a great price, trust the folks from Elephant Structures! We are one of the oldest and largest metal building suppliers in the nation! Upgraded commercial framing is available. Give us a call today!

40' WIDE x 80' LONG x 14' TALL

LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
