### TOP QUALITY VALLEY BARN WITH OPEN CENTER

**CALL NOW TO ORDER!**

Manufactured using high-strength steel and built to last for decades, this top quality valley barn is a great way to secure and protect all of your vehicles, tools, equipment, and supplies from the threat of severe weather.

This building utilizes a vertical style roof for added strength and longevity and measures 41' wide by 21' long with a height of 11' to provide a total of more than 800 square feet of storage space. The open center allows easy access to your items while the securely enclosed areas provide greater protection from the elements. All of our steel structures can be designed and certified to withstand severe weather specific to your area.

#### LAND/CEMENT FOUNDATION MUST BE LEVEL

- Cement should be 1 ft. shorter than roof length.
- Cement must be level and square from corner to corner.
- Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
