LAND/CEMENT FOUNDATION MUST BE LEVEL

• Cement should be 1 ft. shorter than roof length.
• Cement must be level and square from corner to corner.
• Return trip fees will apply if building is not installed.

In order to get the highest quality installation, we ask to have the site prepared and ready to go on the day of installation. There should be no electrical wires less than 15 feet above the peak height and confirm no underground utilities will be impacted by the installation process (must be 4' or more beneath the impacted areas for ground installation). Remember, all of our structures come with free installation and free delivery.
